Hi Karen & Marcia,

I did the same thing for the well sites with multiple surveys reported - I just added another line below it with the: 1) Survey Date, 2) Survey Start, 3) Survey End, 4) Survey Time, 5) # of FE Detected.

Here's the info for Region 6 Low Production Sites. There weren't that many rows to populate, let me know if I can help with any of the other Regions.

Thanks!

John

How are you handling where there are multiple surveys reported for a well site? I'm adding a line between for each but wanted to double check what you are doing.
